## PRODUCT | ODYSSEY PROSECUTOR

Prosecuting attorneys' offices are constantly busy—with many cases ongoing and new ones starting all the time, there is very little downtime. That's why prosecutors need a software solution that will track and organize all case information—from case status to evidence and victims involved—quickly and easily. Prosecuting attorneys' offices also need a system that doesn't take a lot of time to learn—one that can be used intuitively based on general knowledge of popular Web and Microsoft® Windows® systems.

### Why Choose Odyssey Prosecutor?

Tyler's Odyssey Prosecutor is designed to aid prosecuting attorneys' offices with the processing and maintaining of all hearing and trial information. Users can review, gather, and track case information—including charges, case status, witnesses, victims, associates, evidence, history, and related cases—which is vital to the successful prosecution of their case. Also, with features that allow the tracking of when and by whom case information is modified, users can always be confident that their information is up-to-date and accurate.

With Odyssey Prosecutor, prosecuting attorneys' offices can also:

- Create cases manually using sources such as city, law enforcement agencies, and direct complaints from citizens
- Quickly enter information related to the Grand Jury process, and schedule cases and hearings with ease
- Generate notifications to victims, and victim's reports that must be submitted to the state

In addition, Odyssey Prosecutor is fully integrated with Odyssey Jail Manager and Law Enforcement—so from booking to adjudication, and everything in between, Tyler's Odyssey product centers track and organize it all. It's clear—Odyssey Prosecutor helps prosecuting attorneys' offices become more organized and efficient.

### Easy and Intuitive Access to Information

Tyler's Odyssey Suite has the look and feel of the Microsoft products used every day—so navigation of Odyssey Prosecutor is intuitive. The Odyssey Assistant—Odyssey's comprehensive user portal—is designed to maximize efficiencies and organize complex data into useful information with ease.

- Required fields are color-coded for easy data entry and review
- Quick-key shortcuts make data entry a breeze
- Consistent naming conventions make moving between product centers easy
- Roll-over ToolTips provide on-the-spot guidance
- Tabs for each category of information provide logical organization

Further, the system allows for easy creation of notifications and subpoenas, saving time and increasing efficiency. Users can also attach documents, pictures, images, sound files, and movies to evidence records so hearing and trial information is always complete. All from one comprehensive software system.
