

Tyler Reporting Services

Tyler Reporting Services meets Munis[®] clients' need for reports and queries in formats unique to them, and helps provide the right information to the right person at the right time. Designed for use with Microsoft SQL Server[®] database server, Reporting Services allows clients to access and report information stored in any of their Munis data files. The database views and models are easy to use, incorporate security and permissions set within Munis, and are an efficient way to connect to the database.

Benefits

- Tyler professionals install/configure SQL Server Reporting Services components on your server
- Experienced instructors train your staff to use standard reports and how to create their own unique reports
- Along with a direct connection to all tables and fields, Tyler provides database views/models allowing access your Munis data. The benefits of database views include:
 - » Security settings and restrictions give greater control over who has access to specific data
 - » Data fields are renamed and grouped on the server for easier identification
 - » Easily update views
- Utilize Tyler's library of shared reports. The library continues to grow as clients submit their reports for sharing.
- Custom Database Views—a tool designed for building more complex reports using Business Intelligence Development Studio (BIDS) and/or visual Studio; uses Tyler's existing custom views

Report Library

Tyler Technologies maintains a library of shared reports on its web site. The library includes (but is not limited to) the following reports:

- Budget Projection
- AP Warrant Report
- Open PO Report
- Top 50 Vendor Payments
- Vendor History
- Time Sheet
- Department/Employee Accrual Report
- Daily Receipts Report
- Parcel/Account List
- Top Taxpayers Report

...continued on reverse

Report Models

Data is presented in a simplified structure and uses business-oriented language. The following tools are available:

- Report Builder—ad hoc query tool, requires the use of models

Tyler Reporting Services

Reporting

- Novice and expert users can quickly assemble reports with the powerful wizards and built-in functionality reports
- Use Datasets to connect to data, select fields and records, sort, format and more
- Add charts, drill down, parameters and hyperlinks to turn reports into interactive documents or web content
- Use analysis tools to examine trends, expose relationships and zero in on important facts. These include charting, field highlighting, running totals, Top N, Bottom N, and sorting,
- Report properties give you the ability to format the report, report items and database fields
- Supports BMP, TIFF, JPEG, PNG and Windows metafiles (WMF) images
- Exports available are PDF, XML, TIFF, CSV, Excel and more
- Execute and save reports as a document on the server for viewing, printing or emailing by authorized users
- Each time a report is executed, Tyler Reporting Services utilizes the most current Munis® data for display
