

ExecuTime Mobile Solutions

Geofencing

We understand that your workforce is not always behind a desk; there are many employees out in the field who need a time management solution that is just as mobile as they are. ExecuTime mobile solutions will dynamically increase the efficiency in which your workforce operates.

Workforce Management

ExecuTime™ mobile access allows employees and supervisors to have access to time and attendance and scheduling. Additionally, geofencing and geolocation can be set up to restrict an employee's ability to clock in or out within a specified building(s) or location. An employee's locations can also just be tracked without restriction.

Answers at your Fingertips

Geofencing

Find out when your shift is, request time off, and find answers to your questions using your mobile device. ExecuTime mobile solutions increase workforce productivity by putting the answers to your time management questions right at your fingertips, eliminating the need to rely on the home office to swap shifts or find out your accrued time off..

This tool is not only a great benefit to employees but managers as well. Managers can resolve exceptions, approve timesheets, and handle employee requests in real-time, while also having access to view job costing and employee schedules.

ExecuTime Mobile Benefits

- Allow supervisors to dynamically manage employees using real-time data
- Give employees the flexibility to manage their day from anywhere
- Enforce geofences or track employee location
- Allow managers and employees to handle a variety of tasks regardless of their physical location
