

CHOOSE THE RIGHT CLASSES

To help you build your schedule with the right product classes, we've added a feature to our Tyler Connect class catalog. Each class will have the applicable product(s) within a colored box above the class title as shown in the example below.

For your convenience we've included our complete product track list and the corresponding color for each.

Example: *Enterprise ERP is in purple above the title of the class.*

Enterprise ERP (Munis)

Account Rules Vs. Conditional Rules - We Have a Winner Folks [1073]
