Munis Financial Management
Integrated Applications for Powerful Performance
A Single Solution That Improves the Way You Work

Designed specifically for the public sector, Tyler’s Munis® Financial Management suite of applications can handle every aspect of your accounting, budgeting and procurement needs. As a core component of our advanced enterprise resource planning software, it is specifically designed to work the way you do.

Munis addresses the financial and accounting needs of the public sector with one powerful and easy-to-use solution. The fully integrated solution offers fast access to information, simplified reporting and time-saving workflow to help local governments and school districts ensure accountability, make informed business decisions and increase financial transparency.
Achieve Accountability and Transparency with Munis

Financial management in the public sector has never been more complex. Governments must justify program and service costs, adhere to complex and constantly changing standards and adapt to an increased need for transparency — without increasing labor costs.

Munis was designed specifically to meet the demands of organizations like yours — streamlining financial management processes to provide a 360-degree view of your financial information to enable strategic decisions.

Transform your financial management with Munis

Our financial management applications help you easily integrate important financial data and streamline processes throughout your organization to provide the tools for informed decision-making, greater efficiencies and maximized resources.

Benefits of Munis Financial Management

• Gain real time insight into business processes for strategic decision making
• Improve operational efficiency, effectiveness and responsiveness
• Create consistency of data and processes
• Minimize risk by improving financial controls
• Maximize the efficiency of business processes
• Improve compliance with local, state and federal requirements
Munis General Ledger

The general ledger is the backbone of your organization’s finances. To maximize the efficiency and transparency of your financial management, you need to capture transactions one time in a way that is fully documented, completely traceable, and accessible to everyone within your organization and community.

The power of Munis General Ledger lies in its tight integration with all other Munis modules. It provides quick, online access to account information, including the ability to easily view transaction details such as purchase orders, invoices, payroll data and cash receipts, as well as a detailed audit trail across applications.

Munis General Ledger is a comprehensive and easy-to-use journal processing system for multi-fund budgeting and accounting that meets Governmental Accounting Auditing and Financial Reporting (GAAFR) and Generally Accepted Accounting Principles (GAAP) standards. Munis General Ledger automates journal entries, capturing transactions through single entry and documenting transaction details that are completely traceable, providing valuable transparency within your organization and district.
Tools for Today to Plan for Tomorrow

Munis Budgeting

As public sector budgeting practices and requirements become more complex, you need access to detailed facts, figures and data to make key budgeting decisions. Munis provides industry-leading tools designed to help you plan, manage and monitor your budget-related activities throughout the year, so your community operates from a strong foundation.

Simplified financial planning and budgeting tools in Munis provide you with everything necessary to keep tabs on today’s budget while planning for tomorrow. With Munis, you can effectively check transactions against budgets, run statistical data, link dollars to results and more, in real time. Whether you work on an annual, biennial or even a ten-year capital budget, our advanced — yet easy-to-use — tools help you manage both existing and projected budgets.

Managing your budget is made easy with tools for decentralizing internal departments, importing and exporting to Microsoft® Excel® for easy manipulation and analysis, and forecasting the impact of salary and benefit costs. Users across your organization and district have insight into account balances in real time, from the time a requisition is created to when the final invoice is paid. Munis allows you to see how your budget dollars flow through the encumbrance process while providing you with an accurate reflection of what’s been spent and what’s still available.

Munis provides a complete view of your organization’s finances allowing you to streamline and simplify processes; perform budget projection, analysis and forecasting; and increase efficiency while reducing costs and maximizing resources.
Streamline Operations with Powerful Simplicity

**Munis Procurement**

Take your procurement management to the next level with Munis. Munis Procurement provides you with an enhanced, fully integrated electronic purchasing system for managing the processes associated with requesting, reviewing, contracting and purchasing from vendors. From requisition to purchase, Munis Financial Management streamlines the entire procurement life cycle.

Munis Procurement increases efficiencies by streamlining the purchasing process, resulting in shorter processing times. The easy flow of information and the ability to customize processes ensure that all of your purchasing requirements and needs are met, while improving the purchasing power of your organization.

Easily communicate with vendors using Munis eProcurement, which integrates with vendor websites providing you the ability to shop online without leaving Munis. Plus, Munis Vendor Self Service empowers your vendors by providing a place to view bids, submit required forms, review invoices and check information. Munis delivers the right tools, functionality and access to data to help you make the best purchasing decisions for your organization.
Maximize Efficiency with Integrated Applications

Streamline approval processes with advanced workflow
Munis reduces data entry and increases efficiency with automated workflow and electronic approvals. This gives you complete control over which users should be included in each level of the approval process, regardless of how many approvers are required.

Ensure data integrity with role-based security
From purchase orders to budgeting and beyond, Munis role-based security is completely customizable, providing you with the control to determine who has access to view, edit or delete information across your organization.

Maximize user experience
Keeping up-to-date with data is always a challenge, but it doesn’t have to be with Munis. Customizable, at-a-glance dashboard web parts give you a quick snapshot of key data and metrics. For example, Munis Central applications provide a 360-degree view of financial activities with the ability to dig deeper into the details when needed, allowing you to respond more quickly to requests for information.

Workflow Central
Simplify Data Analysis and Reporting

Munis Analytics and Reporting includes several tools that help clients improve data management, analysis, information sharing and report delivery. And robust Microsoft Office® integration provides seamless data exports to Excel for further analysis.

Support for industry-leading business intelligence and ad hoc reporting tools offer even further flexibility and customization while still using existing application permissions. Munis database cubes, built on Microsoft SQL Server Analysis Services, allow you to make better business decisions by easily viewing comparisons, patterns and trends with Microsoft Excel PivotTable and PivotChart reports. Using SQL Server Reporting Services, you can create and manage complex, interactive reports and deliver them in a range of formats. Additionally, Tyler employs a dedicated Munis state reporting team responsible for ensuring you maintain compliance with state and federal reporting mandates.

Save time with Tyler CAFR Statement Builder

Tyler CAFR Statement Builder™ saves you time by streamlining the process of creating GAAFR statements and storing your preferences so you can use them again, year after year. This easy-to-use tool helps you produce a full range of statements and supporting schedules that you may have previously relied on your auditors to create. The process of creating statements is streamlined to a few simple steps, including importing data, entering adjustments and assigning accounts to account groups, which saves you time every year. Tyler CAFR Statement Builder wizard is embedded with GASB rules and walks you through every step in the process while leaving an audit trail. With your statements in place, outside auditors can focus their time on performing true audit functions.
Solutions to Deliver Greater Transparency

At Tyler, we understand that you’re busy. That’s why we’ve created tools to simplify your most critical processes. From reporting to revenue collection and communicating with your community, our tools are designed to provide you with more intelligence and increased transparency so you can spend less time running reports and more time improving your community.

Communicate easily with citizens and vendors
Getting data to internal resources is simple, but what about communicating with vendors and citizens? Munis self-service applications allow citizens and vendors to easily access their accounts online, and Tyler Citizen Transparency™ integrates with Munis Financial Management to show your community how tax dollars are being spent through easy-to-digest charts and graphs.

Automate content management
Tyler Content Manager™ (TCM) automates document handling across your organization — from batch scanning, indexing and storage to immediate document retrieval. TCM automatically links purchase orders, forms and other documents to reduce clerical work and guarantees your supporting documentation is accessible when you need it. TCM reduces your paper usage, file storage space, printing and postage costs for significant savings.

Gain effective revenue collection with Tyler Cashiering
Manage your organization’s revenue collection from multiple locations and collection points with Tyler Cashiering™. Designed to streamline revenue collections, Tyler Cashiering integrates with Munis to centralize the collection process and provide exceptional access to cross-system collection tools with a versatile, easy-to-navigate interface.

Why Tyler?

Tyler Technologies is committed to the public sector. We develop software and support solutions that meet the specific requirements of local governments, municipalities and schools — and have been doing so since 1979. Our staff are busy implementing more than 100 new Munis sites each year, providing client training, developing new features, providing technical support and more. By serving thousands of clients nationwide, we are able to see common issues, help identify best practices and develop innovative solutions for our clients.

Tyler’s Evergreen Promise

Tyler is committed to providing clients with the tools they need today and into the future. We have dozens of clients who have used Munis for more than 30 years and we expect that they will be with us for decades to come. Why? Because we are committed to their changing needs. Every year we release new feature upgrades with no relicensing fees for clients with an annual maintenance contract. We call this our evergreen philosophy. And to help clients stay current with updates we have the Tyler EverGuide® support initiative, which provides training resources to ensure that you never lag behind. Tyler is committed to helping you maximize your Munis solution today and for years to come.
Software that thinks like you do.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of their constituents. Tyler’s client base includes more than 15,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. In 2016, Forbes ranked Tyler on their “Most Innovative Growth Companies” list, and it has also named Tyler one of “America’s Best Small Companies” eight times. The company has been included six times on the Barron’s 400 Index, a measure of the most promising companies in America. More information about Tyler Technologies, headquartered in Plano, Texas, can be found at www.tylertech.com.
