

ExecuTime and Incode Integration

Labor costs are a big part of your budget, so you need an accurate reporting of your employee hours. Labor costs escalate through human error, manual processes and requests, and scheduling conflicts — but they don't have to.

Whether you're ready to eliminate paper timesheets or automate your scheduling practices, ExecuTime™ is an industry-leading solution that helps streamline your time, attendance, and advanced scheduling processes. Now you can electronically capture, manage, and analyze all of your time cards and schedules, and seamlessly integrate that data in real time with your Incode® enterprise resource planning (ERP) solution so there's no duplicate entry and less room for errors. ExecuTime handles all of your time and attendance and scheduling challenges with ease and precision while keeping an eye on your bottom line.

Incode and ExecuTime Integration Features

- Clock in and clock out takes place in ExecuTime and information is sent to Incode by a user-initiated process.
- Incode General Ledger (GL) and project account security restrictions are enforced.
- Incode leave accruals and balances can be viewed.
- All payroll setup codes are established and maintained in Incode; ExecuTime displays these codes to guarantee all information accessed in ExecuTime is current.
- ExecuTime displays specific employee criteria including: employee pay codes, employee positions, and employee locations.
- ExecuTime calculates overtime and comp hours employees are eligible for based on FLSA rules. When time sheet information is sent to Incode, Incode Payroll applies the various pay and overtime rates based on the hours and hour codes passed from ExecuTime.
- Employee details including employee personnel information (e.g. hired and terminated employees), Incode project ledger and general ledger accounts will be updated automatically in ExecuTime.
- Advanced Scheduling can be used for complex shift and scheduling needs.
- Shift and scheduling information is viewable within Incode Employee Self Service and allows employees and supervisors to view additional information related to specific shifts and schedules.
- Workflow items can be approved in ExecuTime via email.
