The Smart, Relevant, Connected Solution for K-12 Education
Work Smarter and Stay Connected

Whether you’re a finance director, human resources officer, or payroll technician, your days can pull you in many different directions. Tyler Technologies is committed to empowering school districts with software solutions like Infinite Visions® that allow you to work smarter to simplify workflow, provide on-demand access to important and relevant information, and help you stay connected wherever your work takes you.

Designed specifically for K-12 school districts, Infinite Visions integrates and streamlines the management of your finances, payroll, human resources, purchasing, fixed assets, reporting, and more. It breaks down departmental data silos, streamlines processes, and eliminates duplicate data entry. Equipped with features like role-based dashboards, automated workflow, and interactive charts and graphs, Infinite Visions transforms the user experience and ensures your district is running at peak efficiency.

“[With Infinite Visions] I can be at a workshop reviewing budgets or spending a weekend visiting my grandchildren while working on a report. It’s a wonderful thing to have more time with my family.”

– Lynn Easton, Director of Finance and Business Services, Cave Creek Unified School District, Arizona
Discover True, Districtwide Integration

Tyler knows schools. For decades, we have been focused on delivering the best software to K-12 districts. More than 5,000 school districts use one or more Tyler school solutions, including Infinite Visions, Versatrans®, Traversa®, and Tyler SIS™. We serve districts of all sizes; our clients range from schools of 250 students to multi-campus districts with 200,000 students. Infinite Visions is a core component of Tyler Technologies' integrated school solution suite, which provides solutions for finance, human resources, transportation, student information, data analytics, and more.

With a complete Tyler software suite, districts see a significant reduction in staff hours spent performing redundant tasks in multiple systems, managing integrations with third-party systems, and reporting on data.

Unlike other software providers, Tyler can deliver a districtwide solution from a single vendor. It’s our unique advantage.

Three Key Benefits of a Single Vendor Solution

1. **Saves you money** as efficiencies are gained from a districtwide solution

2. **Provides dynamic data integration** for finance, HR, SIS, and transportation — leveraging your district’s data to the fullest

3. **Saves staff time** by eliminating redundant tasks within departments
Imagine Your District …

Smart.
Whether you’re concerned about budget tracking, ACA hour limits, or keeping up with employee milestones, Infinite Visions is equipped with Smart Card technology that analyzes your data while you work and proactively alerts you to areas requiring your attention. But Smart Cards do more than just display data — they’re actionable as well. Share, approve, or delve deeper into an item with the click of a mouse or tap of your finger.

Relevant.
Infinite Visions helps increase your district’s efficiency through persona-based dashboards designed to give key users, such as business managers, HR directors, and administrators, immediate insight into the specific data they need to do their jobs and eliminate unnecessary information.

Connected.
You’re not always tied to your computer, so why should your work be? With an adaptive user experience and browser independence, Infinite Visions allows you to achieve the same level of productivity whether you’re at your desk or in a business meeting.

Role-Based Dashboards
User experience is at the forefront of the Infinite Visions design process. Product developers work closely with users in district key roles to create the look, feel, navigation, and workflow you’ll find throughout the product.
“All I can say is that Infinite Visions is the perfect name for this solution. The possibilities of how we are going to save money and time, and produce greater results are infinite.”
– Rebecca Williams, Assistant Business Manager, Cajon Valley Union School District, California
Financial Management

A true K-12 multi-fund accounting system, Infinite Visions provides you with the tools you need to effectively manage and report your district’s financial data with ease. Complete integration eliminates redundant data entry, allows transactions to flow into the general ledger, and simplifies compliance reporting. Infinite Visions also empowers districts with role-based security settings, account code restrictions, pre-designed and custom reports, proactive alerts, and more.

- General Ledger
- Budgeting
- Purchasing and Payables
- Vendor Self Service
- eProcurement
- Fixed Assets
- Warehouse
- Accounts Receivable
- Grant Management and Project Tracking

Human Capital Management

Keep the focus on your district’s most important resources: your people. High-performance functionality available in Infinite Visions helps you efficiently streamline personnel and payroll processes, as well as hire and retain qualified, talented teachers — all while easily handling the accompanying managerial tasks. Additionally, Infinite Visions’ self-service offering gives employees secure access to their personal data, including payroll information, leave requests, and benefits enrollment, to reduce HR staff workload and put more power into the hands of the employee.

- Human Resources
  » Integrated applicant tracking
  » Position control
  » Electronic personnel action requests (ePARs)
  » Contract management, evaluations, and insurance tracking
  » Employee 360 dashboard
  » HR dashboard with proactive alerts for staff performance measures, PARs, and other workflow
- Payroll and Benefits Administration
  » Position encumbrance tracking
  » Position budgeting
  » Integrated substitute teacher tracking
  » Salary schedules and employee history
  » Benefits enrollment and management
  » Time entry
- ACA Reporting
- Employee Self Service
School-Based Employee Functionality

With Infinite Visions, school-based employees can better manage their day-to-day responsibilities with a paperless, integrated workflow. Key features include:

- Staff data for supervisors with My Staff Directory
- Role-based dashboards with embedded Smart Card and Smart Chart technology, and key performance indicators
- Budget entry, purchasing, invoice entry, check printing, bank reconciliation
- Employee expense reimbursements and online forms
- Warehouse requisitions
- Student activities accounting

Powerful Reporting and Analytics

Infinite Visions transforms the way districts think about reporting. Powered by smart technology, users are proactively alerted to important information, like budget or employee leave balances, which can then be analyzed or shared — eliminating the need for routine reporting. Should you need to pull a standard report, Infinite Visions is also equipped with more than 400 pre-formatted reports that can be reviewed online, printed, exported, or emailed. Additionally, an unlimited number of ad hoc reports can be customized by the user.

- Infinite Visions SmartGrids
  » Precision drill-down capabilities
  » One-click personalized grids exported to Microsoft® Excel
  » Option to save reports to run at a future date with current data
- Report scheduling
- Easy, custom SQL reporting with Infinite Visions Info-Link
- Global search
- Budget forecasting
- ODBC-compliant report writers

“We’ve given our employees more power and overhauled many of our business practices. Now, employees are able to [perform tasks] themselves, which saves everyone time.”

- Kim Scott, Business Manager, Kiona-Benton City School District, Washington
Advanced Time and Attendance
In addition to the time entry and tracking functionality built into Infinite Visions, integration with Tyler's ExecuTime™ enterprise workforce management solution can help you save time, gain efficiency, and step up staff productivity no matter the size or complexity of your district.

- Advanced scheduling functionality designed to minimize labor costs and overtime expenses
- Tools for complex time tracking rules and pay codes
- Seamless, automated integration with Infinite Visions payroll
- Self-service functionality for employees

State Reporting and Compliance
Never worry about missing a reporting deadline again. Infinite Visions delivers everything you need to maintain compliance with state and federal reporting mandates, including state annual financial reports, staffing and licensing reports, retirement reports, and workers’ compensation reports.

Transformative Technology
At Tyler, we know firsthand that technology is always changing, and we capitalize on this knowledge to respond to your specific needs and better serve your staff and community. This includes citizen transparency tools to satisfy growing citizen and stakeholder demand for 24/7 data access, as well as mobile solutions to work wherever the day takes you.

- Tyler Citizen Transparency™
- Tyler CAFR Statement Builder™

Fully Integrated Document Management
From batch scanning, indexing, and storage to on-demand document retrieval, Tyler Content Manager™ automates document capture and storage, reduces manual data entry, and helps eliminate paper across your district.

- Powerful search capabilities
- Extensive document security and electronic audit trails
- Streamlined workflow
- User-defined archiving schedules

“The level of integration throughout the entire system is powerful. I can honestly say my office staff enjoys their jobs more since we went live with Infinite Visions.”
– Nancy Cole, Business Administrator, Putnam Public Schools, Connecticut
Let Us Do the Heavy Lifting: Tyler’s Cloud-Based Options

Software as a Service (SaaS)

More than 6,000 public sector clients rely on Tyler’s cloud-based options to host their district’s data and Tyler software solutions. This subscription-based approach provides you with full access to Infinite Visions without worrying about aging technology, security, infrastructure maintenance, or hardware and software costs. Tyler’s SaaS will help you reduce your security risks, keep your software and processes up-to-date, and minimize your onsite IT burdens. Let Tyler’s SaaS team handle the details so your IT staff can focus on other strategic projects.

Disaster Recovery

Tyler’s disaster recovery services help you prepare for the unexpected: a roof leak, equipment failure, or full blown natural disaster. With this service, a copy of your data is uploaded each day to one of Tyler’s data centers and is accessible to your team whenever you need it. Tyler’s team is committed to helping you restore essential business practices within 24 hours — and in fact, most sites are up and running within a couple of hours.
Why Tyler?

At Tyler, we believe our strength lies not only in delivering best-in-class software on the day of installation, but in unmatched support and services that help you make the most of your investment every day. From product training to ongoing technical support, we’re there to troubleshoot common issues, identify best practices, and develop innovative solutions that recognize your unique challenges.

Access support how you want

- Call our U.S.-based toll-free support hotline from 6:30 a.m. to 7 p.m. CT Monday-Friday.
- Email our technical support team.
- Log in to our online support portal.
- Access Tyler Community, a user-driven, online support community available 24/7/365.

Implementations designed for you

Your software should be delivered and implemented on schedule and within budget. That’s more than a goal for Tyler — it’s an expectation. Our implementation process is based on three important foundations: experience, people, and the inclusion of the Project Management Institute (PMI) methodology. We strive to deliver a well-planned implementation that pairs an understanding of your district’s current needs and practices with Tyler’s best business processes, role-based business intelligence, and unique user interfaces that increase efficiency and productivity. With decades of experience and more than 8,000 successful implementations, Tyler ensures an outcome that exceeds expectations.

“CCSD93 has been very pleased with the training, support, reliability, and user-friendly nature of Infinite Visions. It has allowed us to streamline processes between the business office and the HR department.”
– David Hill, Associate Superintendent, Community Consolidated School District 93, Illinois
Ongoing training options to meet your needs

• Schedule on-site or virtual training.
• Attend a regional user group meeting.
• Access Tyler U, our continuing education portal.
• Sign up for training geared toward newly hired key personnel.
• Register for our annual user conference, Tyler Connect.

Your future, secured

Tyler is committed to providing clients with the tools they need today and into the future. We have dozens of clients who have used Infinite Visions for decades and we expect they will be with us for decades to come. Why? Because we are committed to their satisfaction and continue to develop new solutions to meet their changing needs. Every year we release new feature upgrades with no relicensing fees for clients with an annual maintenance contract. We call this our evergreen philosophy. And to help clients stay current with updates, we have the EverGuide® support initiative, which provides training resources to ensure you never lag behind.

“Our amazing consultant from Tyler taught us far more than simply how to use the product. The instruction [we received] has been invaluable in helping us improve our internal controls.”

– Jason Johnson, Director of Finance, Pryor Public Schools, Oklahoma
About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools, and other government entities — to become more efficient, more accessible, and more responsive to the needs of their constituents. Tyler’s client base includes more than 15,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom, and other international locations. In 2017, Forbes ranked Tyler on its “Most Innovative Growth Companies” list, and it has also named Tyler one of “America’s Best Small Companies” eight times. The company has been included six times on the Barron’s 400 Index, a measure of the most promising companies in America. More information about Tyler Technologies, headquartered in Plano, Texas, can be found at www.tylertech.com.
